Message from Morocco and Israel

• David and Goliath
Reenactment

For the first time in Australia's history, the percentage of the population that identifies as Christian has dropped below 50%. That's the alarming news from the latest Census. The situation is similar in New Zealand. Sadly, we no longer live in a Christian country. Christian values and principles are now under open and sustained attack. For example, just look at what's happened to Andrew Thorburn, the Essendon AFL Club CEO. He's been attacked and vilified because he's a Christian who believes and upholds the Bible.

We now live in a post-Christian age. Fewer and fewer people are attending church and reading the Bible. Bible illiteracy rates are at an all time high. Many people don't even know the basic teachings of the Bible. Many aren't familiar with the famous Bible characters and their stories.

We at The Incredible Journey feel impressed to do something about this situation. We want to do all we can to help address the high levels of Bible illiteracy. After prayer and careful planning we endeavour to do the following:

1. Produce television programs that introduce people to the Bible and encourage them to read it.
2. Produce programs on prominent Bible characters including Abraham, Joseph, Moses, David, Elijah, Daniel, and Paul.
3. Produce series of programs that cover major books of the Bible, including Daniel and Revelation.

We believe this situation is serious and requires urgent attention. So, we're not waiting. In faith we've stepped out and have already commenced production in all three areas.

We are presently in Israel and have commenced production on a new series on the Bible.

We have also started production of programs featuring prominent Bible characters. We're starting with two brand new series on Joseph and Moses. Joseph is a 5-part series and Moses a 3-part series. We are very excited about these programs as they tell the stories of the lives of these great Bible personalities.

We believe these programs will appeal to the general public. We all love stories. They grab our

attention and engage our curiosity, emotions, and imagination. When a story catches our attention and engages us, we are more likely to absorb and remember its message and meaning than if the same message was presented simply in facts and figures. Stories bring facts and information to life. This makes storytelling powerful in delivering any message - especially the Bible message. This is certainly true of the stories of Joseph and Moses.

We are also presently working on a new series on the Book of Daniel that covers the entire book in-depth chapter by chapter. Daniel is the only book that Jesus named and encouraged his followers to read. Its message is particularly relevant for the End Time and the days we are living in.

So, we've started. We've got big plans. But plans are meaningless unless they become reality. And this is where we need your involvement. We need your prayers, encouragement, and financial support to complete these programs to the highest standards to ensure they appeal to the general public and catch their attention. Will you join us and stand by us in this step of faith? Together we can make a difference. Together we can make a mark for eternity.

TIJ 'Bubsie' Progress Report – Sharing Faith Right Around Australia

In our July/August newsletter, we announced our evangelistic project to retrace the steps of Nevill Westwood's 1925 missionary trip around Australia. We are excited to announce that we found and purchased a 1923 Citroën 5CV. However, it needs some work to prepare for its incredible journey in 2025.

New Programs

• **The Seven Deadliest:** What makes our planet unique is that it is teeming with life. As humans, we like to get near these magnificent animals, to watch and admire them in their natural habitat. But many of these animals are not only spectacular but are unpredictable and dangerous; they might look cute and cuddly but could kill you in mere seconds. This program takes us on a journey into the wild in search of the world's deadliest animals and their message for us today.

• **It's About Time:** Time is the most valuable asset we have. All of us get the same amount of time every week – 168 hours. Often, the difference between people who make their lives count and those who don't is how they respect and manage their time. The highest achievers manage their time exceptionally well. With the right time-management skills, life becomes easier, because good time management lets you work smarter – not harder.
